

MobileHCI 2010 Conference

Call for Sponsors

You are invited to support the MobileHCI 2010 conference, helping us ensure a successful event. This is the ideal way to show your organisation's commitment and interest in the field of mobile and wearable computing devices and services. Also it is an excellent opportunity to present your company to top researchers in the mobile field.

Sponsors are very important to the conference and the organising committee ensures that their contribution is well recognized. We would like you to consider becoming a corporate sponsor: Platinum, Gold, Silver or Bronze Sponsor.

If you wish to support MobileHCI2010 as a sponsor of any kind, please contact Prof. Luis Carriço, Dr. Marco de Sá or Prof. Nuno Correia (sponsoring@mobilehci2010.org).

The conference

MobileHCI 2010 will be the 12th International Conference on Human-Computer Interaction with Mobile Devices and Services. The **MOBILEHCI SERIES** (<http://www.all.mobilehci.org/>) provides a forum for academics and practitioners to discuss the challenges and potential solutions for effective interaction with mobile systems and services. It covers the design, evaluation and application of techniques for all mobile and wearable computing devices and services. The lemma of this 12th Edition is "A mobile world for all", thus adding to the aspects of mobile human-computer interaction, those of universal accessibility in mobile settings.

The sponsoring of this conference series, during the previous 11 editions, includes: governmental established agencies and organizations, like **SenterNovem** of the Dutch Ministry of Economic Affairs (MobileHCI'08) or Germany's **UMIC** (MobileHCI'09); research institutes, such as **Fraunhofer** (MobileHCI'09) or Singapore's **MXR** (MobileHCI'07); mobile telecommunications companies, like **Vodafone** (MobileHCI'08); mobile hardware and software creators, such as **RIM** (MobileHCI'08) and **Microsoft** (MobileHCI 02-05); and of course **NOKIA** that has a long time sponsoring agreement with the conference series and has sponsored it since its 1st edition back in 1998, in Glasgow.

The conference proceedings are published in the **ACM DL**, one of the most, if not the most, important publisher of computer research results all over the world, thus counting with a huge impact on the research community. SIGMOBILE and SIGCHI ACM interest groups have also sponsored the conference during the last years.

The sponsoring opportunities

Platinum Sponsors (15.000€)

- Mentioned continuously on all the website's pages – larger logo
- On the cover of the final program and conference proceedings (larger logo)
